Permissions are now on for these transmissions and you can transmit as many times as necessary until the end of business on Friday, May 10, 2013. ## Web-Based IEP System

Exciting News!! The Illinois State Board of Education has developed a web-based IEP database system. This database system includes easy to use wizards to assist in developing an IEP, allows for draft and official forms, and integrates with other systems at ISBE, such as the Student Information System (SIS), in order to reduce duplicate entry of data. The web-based IEP will also be integrated with the new personnel and pupil reporting systems, which are currently being developed.

The web-based IEP is currently in the "pilot phase", but will be available to school districts, free of charge, beginning with the 2013-2014 school year. For more information about the new system and/or to participate in the pilot, please see <http://www.isbe.net/spec-ed/html/iep-web.htm>. Check back frequently as more information will be posted.

In order to assist individuals with general information about the new database system, a short training video is available at: [http://www.hbug.k12.il.us/resources/iepoint\\_web\\_demo/iePointnet\\_Training\\_Demo\\_demo.swf](http://www.hbug.k12.il.us/resources/iepoint_web_demo/iePointnet_Training_Demo_demo.swf)
