

iePoint > 2015 Coming Soon

It is almost that time of year again! Fall is fast approaching and so is the new version of *iePoint* > for the 2014-2015 school year. We are currently working to develop *iePoint* > 2015 and it will be released in the coming weeks.

If you have not yet completed *Start New Year*, it is imperative that you log into *iePoint* > 2014.1.4 today and get this completed. You will be required to have this completed before accessing *iePoint* > 2014.1.4 or updating to *iePoint* > 2015. The installation of *iePoint* > 2015 will separate the data years and create the *iePoint* > 2015 icon.

When *iePoint* > 2015 is released to your site, you will automatically receive notification upon entering *iePoint* > 2014.1.4 that an update is available.

Be sure to watch for additional information about the availability of *iePoint* > 2015 in the upcoming news briefing articles or separate email announcement.

A: As long as you have entered the correct *FACTS* Begin Date this error will disappear once you have updated to *iePoint* > 2015, which will be released in the upcoming weeks.
