## Updated Error Checking in I-Star Results in Additional Errors

It was discovered that the error checking in I-Star was missing important errors between *FACTS Approval* Begin and End Dates and SIS Enrollment and Exit Dates. Due to this, updated error checking was released into I-Star with the deployment on Friday, March 10<sup>th</sup>. A few clients did find upon logging into I-Star on Monday, March 13<sup>th</sup> and running the 'Recheck Edits' that their data actually contained several errors that were not previously being reported. The reason for the additional Errors and/or Warnings is as follows:

- The *FACTS Approval* error F-147 (Begin Date/Exit Date is not within SIS Enrollment) is now looking for a matching SIS Enrollment with the same Begin and End Dates as in I-Star. If these dates do not match, an error will be received in I-Star. To correct this error, either I-Star or SIS will need to be corrected so both systems reflect the same Begin and Exit Date.
- If a SIS Enrollment record has an End Date but the *FACTS Approval* record in I-Star does not have an End Date, a warning of W-148 will be received in I-Star. To correct this warning, an end date needs to be entered into I-Star.
