Fund Codes DEF Student Claim Error Emails

Harrisburg Project will be emailing districts that have *Student Claims* errors for Regular Term Fund Codes DEF records. These errors must be corrected by the end of business Friday, July 30th. No additional edits will be allowed after this data pickup is complete.

Student Claims error emails will be sent to any district with unresolved errors; during the last week of July, those districts with unresolved errors will receive a courtesy call from Harrisburg Project.

Indicator 11 Data Collection - July 30th

ISBE will collect Indicator 11 data on July 30th. Indicator 11 data is collected for students who received an initial special education evaluation during the current school year. This data is collected to determine if the district did complete the evaluation for special education within 60 days of the parental consent. It is extremely important to select the correct reason if the 60 day timeline isn't met. ISBE will issue district-level findings of non-compliance when the reason for delay is codes 03, 04 or 06.

Be sure to review our [‘How to Access Indicator 11’](#) snippet that demonstrates entering Indicator 11 information.

Indicator 13 Data Collection - July 30th

ISBE will collect Indicator 13 data on July 30th. Indicator 13 data is used to ensure that students age 14 1/2 and older have an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, and goals related to the student's transition services needs. There must be evidence the student was invited to the IEP Team meeting when transition services are to be discussed. The [‘How to Access Indicator 13’](#) snippet will show how to enter this information into I-Star.

To avoid an ISBE non-compliance finding, the Indicator 13 data form should read ‘Meets’ once you have entered the data. The ‘Indicator 13 Not Meeting Requirements’ report under the report category of ‘Approvals’ will show any form that is in ‘non-compliance’. Non-compliance records should be reviewed and corrected by the July 30th data pickup.
