## December 1 Child Count 2021-2022

The December 1 Child Count is an unduplicated count of students with disabilities reported by each school district annually to the federal government. ISBE compiles and reports this data to the federal government. In addition, this data is used to process state reimbursement to districts that file claims.

These students must:

- Receive special education direct or related services
- Be Age 3-21
- Have an IEP or ISP
- Have an approval in I-Star active on December 1 and Error-Free

Remember...the snapshot is not taken on December 1. The snapshot will be taken February 23, 2022.
