Transmission Dates are for the 2018 – 2019 school year only. The ISBE manuals and planning calendar date schedule should always be consulted for confirmation.

Reimbursement for Fund Codes D, E and F Regular Term is due July 15th, 2019. Reimbursement for Fund codes X and J is due July 15th, 2019. Reimbursement for Fund Code B is due August 15th, 2019. Reimbursement for Fund Codes E and F Summer Term is due November 1st, 2019.

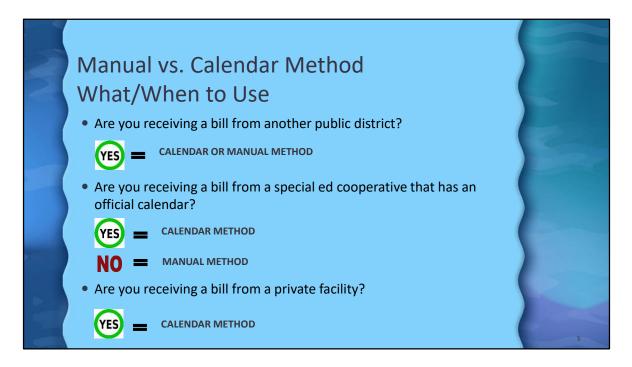

The next several slides will discuss the Methods of Computing Days in I-Star.

There are 3 methods of computing the claim.

The methods vary from all of the claims calculations done outside of I-Star to almost all of the calculations done using I-Star.

Regardless of which method is used, data entry will be required in I-Star to complete the claim.

Let's focus on Manual and Calendar method.

When using these two Methods of Computing days, all calculations for the documentation discussed on slide 9 (50-66A, S50-66B, P50-66B and 50-66C) are done outside of I-Star.

When all of the calculations have been completed, each student record being claimed must be opened and calculation results manually entered.

The only difference between the Manual and Calendar Methods of Computing Days is that the Calendar Method auto fills the days Enrolled/In Session based on the calendar selected.

If the costs are known for the students education, consider the 3 questions on the slide to determine how to enter the claim into I-Star.

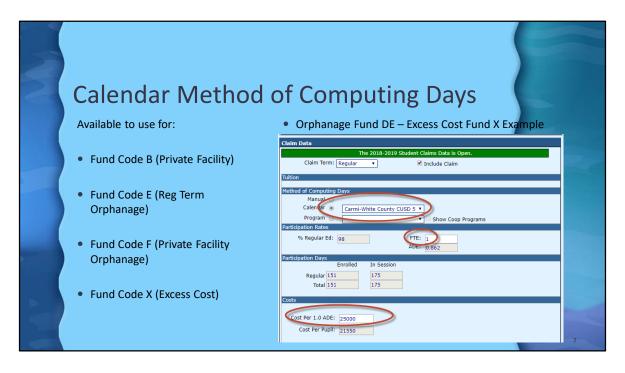

NV.	Manual Metho	od of Computing Days

Manual method of computing days can be used to claim Fund Code X and Fund Code E records in I-Star.

Data entry required = FTE, Days Enrolled/In Session and Cost Per 1.0 ADE

Private Facilities have a per diem. Ed Cost/Pupil can not exceed per diem X days in session. This will generate a Warning in I-Star indicating the cost is too high. However, ISBE suggest you enter total bill amounts.

Note: A Related Service of 25 (transportation) should be included on the student approval. If districts provide transportation for a Private Facility student, the district may claim this amount on the *Student Transportation Claim Reimbursement System*.

Calendar method of computing days can be used to claim Fund Code E and Fund Code X records in I-Star.

Calendar method of computing days is Required for Fund Code B and Fund Code F in I-Star.

Data entry required = FTE and Cost Per 1.0 ADE

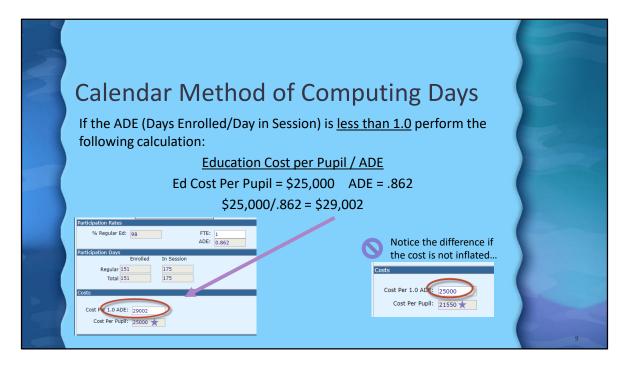

Days 'Enrolled' and 'In Session' will fill based on the District Calendars begin and end dates. This is the key difference between Manual and Calendar Method of Computing Days.

Days 'Enrolled' and 'In Session' will fill based on the District Calendars begin and end dates. This is the key difference between Manual and Calendar Method of Computing Days.

Let's take a look at how data is entered when the claims calculations are done outside of I-Star.

When doing cost calculations outside of I-Star (Fund Codes E, X or for billing), the 5066C is needed to enter claiming information into I-Star for snapshots. Line 6c is the amount that it costs to educate the pupil (Ed Cost/Pupil field in I-Star).

In this example, we are using a student with a Fund Code of X. Notice in I-Star the Ed Cost/Pupil field is not an editable field.

Because it's not editable, the Ed Cost Per 1.0 ADE must be determined.

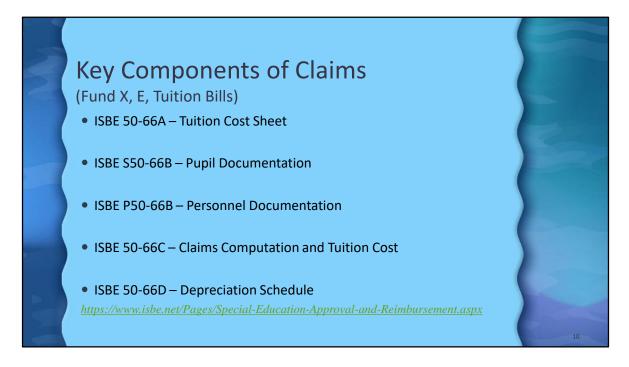

Ed Cost Per 1.0 ADE can be done two ways:

1. If the 50-66C is NOT available, take the Ed Cost/Pupil divided by the ADE and insert in 'Ed Cost Per 1.0 ADE' in I-Star.

In our example the equation would be: \$25,000/.862 = \$29,002

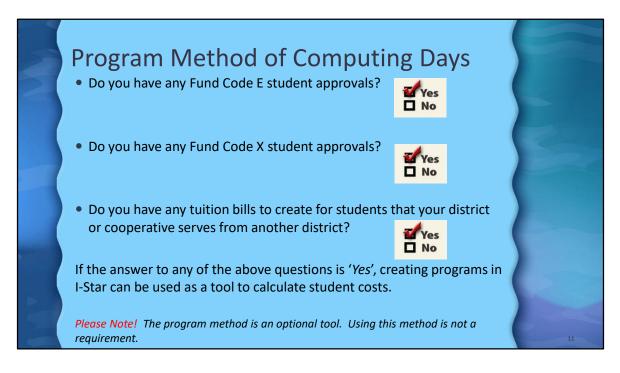

2. If the 50-66C is available, insert Line 5C in 'Ed Cost Per 1.0 ADE' in I-Star.

Remember that special transportation cost also needs to be entered on the record. Fund Code E = 100%Fund code X = 20%

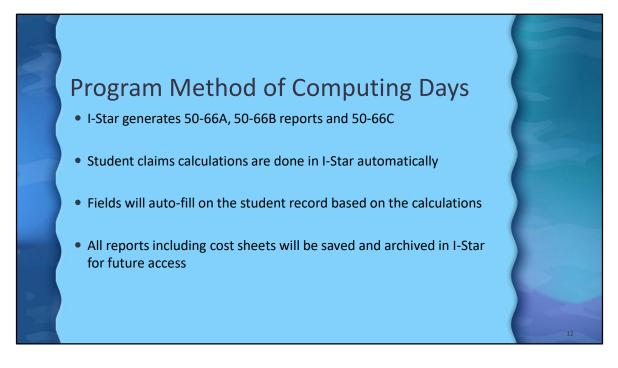

Regardless of how you compute the claims(s) for special education students, outside of I-Star or inside of I-Star, these documents are key to the process.

50-66D is available on ISBE's website under Funding and Disbursements. <u>https://www.isbe.net/Documents/50-66D.pdf#search=depreciation%20schedule</u>

The next several slides will discuss the Program method of Computing Days in I-Star.

Use the questions on slide 11 to decide if your district or coop could use this method.

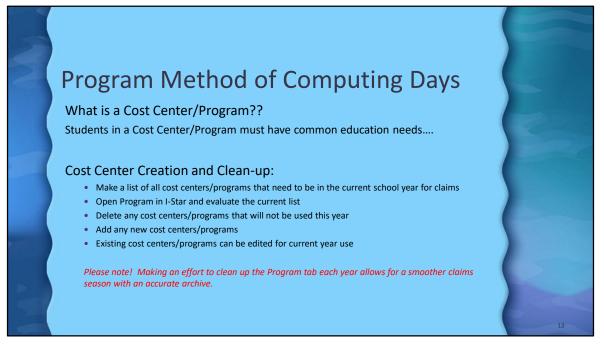

Using the Program Method of Computing Days in I-Star allows users to generate the S50-66B and the P50-66B to assist with cost calculations.

The 50-66A for each cost center can be printed. Some fields are completed automatically based on ISBE data.

Reimbursement calculations are done in I-Star for all students attached to a cost center after entering the 1.0 ADE for each.

50-66Cs (Individual Cost Sheets) may be printed at any time.

According to the *Reimbursement Procedures for Students with Disabilities* manual: "program per Section 130.10 is defined as a combination of special education instructional services, supportive services, supplies, materials, physical plant adjustments, and other special educational facilities designated by a local education agency as <u>meeting the common educational needs of a group of students with</u> <u>disabilities."</u>

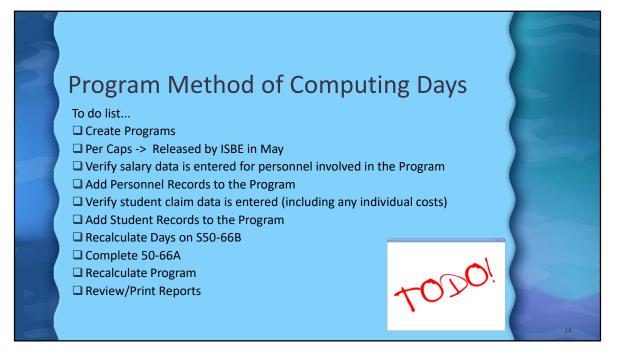

One question to ask is: Are this year's cost centers the same or close to last year's? If the answer is "Yes", one option is to edit those existing cost centers. When editing existing cost centers, those used in previous years stay in tact.

Another option, of course, is to create new cost centers for the current year.

Which students are included in a cost center?

Cost Centers are specifically created for student whose Fund Codes are E and/or X or if you have an out of district student that you are creating a bill to send to the resident district.

All students receiving services with the student being claimed must be included in the cost center. This is the only way to accurately reflect the 1.0 ADE.

Slide 14 provides a basic "To-Do" list to help guide you through this process.

Harrisburg Project highly recommends that the Special Education Director, Business Manager and the Data entry person work together to complete the process.

Once these steps are completed, the 1.0 ADE for the Program will be calculated for each cost center (line 37 of 50-66A) and the claim will be ready for ISBE to pickup.

Remember, the 1.0 ADE for a cost center is what it costs to educate 1 student who is in a cost center 100 % of the time for the entire year with an FTE of 1.0. This is the goal of this process!!!

When all points on the list are completed, you should have the 1.0 ADE for a cost center.

The 1.0 ADE is entered into the cost center and I-Star will do the rest of the work!

The data entry person will more than likely complete many or all of the steps in the Program Method to work. As discussed earlier, there are two reports (S50-66B and P50-66B) that need to be generated. From these two reports, five numbers are generated that are needed to complete the 50-66A. What follows are the steps that the data entry person needs to follow to properly generate the S50-66B and P50-66B using the Program Method of Computing Days.

It is important to remember that some of these steps may be done at any time throughout the year.

For the Data Entry person to be able to accurately create the cost centers, he/she will need:

- Access to the Program Definition
- A list of the cost centers
- A list of personnel involved with each cost center
- •A list of students involved with each cost center

As soon as the list of programs has been obtained, the Data Entry person will be able to begin creating the programs.

To search for programs already created, use the filters to choose or click *Search* to see all programs.

To create a new program:

4. Per Cap Information is automatically loaded into I-Star once it is available

Per Cap to Use

The Resident District Per Cap is <u>always</u> used by ISBE when calculating reimbursement.

The Special Education Director should be consulted if there are questions as to which Per Cap to use.

Use Resident District from Student's Approval record

The Resident District Per Cap is used by ISBE to calculate reimbursement for students. The Resident District Per Cap should be selected if the Preparing District is the Resident District.

Use the "Preparing District" field if you are billing another district for services you have provided. Use "Other" field if you are wanting to run projections or estimated reimbursement calculations. If using "Other", it is acceptable to add 10% to last year's district per cap.

Even though a tuition student is not reported by the Serving District, a 50-66C – Claims Computation and Tuition Cost must still be provided to the Resident District for billing and claiming purposes. The Per Cap used on the Program Method affects the education cost for this student.

Allocation Ratio

The Allocation Ratio is the amount of time that the staff member spends with this cost center.

As per the *Reimbursement Procedures for Students with Disabilities* manual, "The ratio shall be determined by dividing the number of students served by this employee in this program by the total number of students served by the employee the entire year."

The Salary Allocation field will adjust based on the Allocation Ratio entered if salary has been entered on the Personnel record.

If the staff member spends all of his/her time with students in this program: Allocation Ratio = 1.0.

However, if he/she sees other students that are not in this program:

Allocation Ratio is **NOT** equal to 1.0 (a portion of his/her salary is being used when working with other students)

Students can be attached to Cost Centers on the claim record or from the Program Definition.

A list of students in each cost center should have been provided when you were given the cost center names and the Personnel attached.

Confirm that Program Method of Computing Days has been selected. Simply select the drop down and find the cost center name that was created under the Program Definition.

Remember, all students receiving services from Personnel assigned to a cost center should be attached. This is to accurately reflect what it costs to educate one student in that specific cost center. In a nutshell, all students that the teacher works with must be included when calculating costs or the teachers salary must be prorated.

Confirm that FTE is entered

Remember to enter any Individual Student costs on the record (Equipment, Aide, Contract)

Please Note: If the student has Related Service "25" on the approval, the Transportation claim field can be utilized.

These costs are listed on the *Special Education Tuition Bill and/or Claim Computation* (ISBE Form 50-66C). Do not list expenditures in both Columns A and B.

For Lines 8 – 24, depending on the cost accounting specificity of the local education agency, determine the expenditures that are to be reported under Column A (expenditure serves total number of special education students enrolled) or Column B (expenditure serves total number of students enrolled). Expenditures for a specific function CANNOT be listed in both Column A and Column B. All personnel whose salaries and benefits are included in expenditures reported under Column A must be approved on the *Special Education Personnel Approval File*. Function 5100 is restricted to exclude interest for capital expenditures per Section 130.30 (k) of the regulations. Function 2560 (Food Services) is not permitted for claim purposes.

Line 25: Equipment which is necessary for the operation of the special education program designated on the Cost Sheet must be depreciated on a five-year schedule if the per unit cost is \$5,000 or more. A *Special Education Depreciation Schedule* (ISBE Form 50-66D) must be attached to the Cost Sheet if depreciation is entered on Line 25. If the per unit cost of the equipment for the program is less than \$5,000 you may include the total cost in the year of purchase and include in the amount that is listed for line 7. This does not include individual equipment costs.

Line 27: Enter the aggregate number of all classrooms here. This information is provided on the *Data for Use on the Special Education Tuition Cost Sheet*.

Line 28: Divide Line 26 by Line 27 to determine the average operating cost for classrooms in the district/cooperative.

Line 29: Enter the number of district owned classrooms used in the program for which the Cost Sheet is being completed and multiply by the average operating cost for classrooms, Line 28. The number of classrooms should correlate to the number of teachers included in Line 7.

Line 30: If the classroom space used in this program is owned by the district, click the Depreciation radio button and the program will calculate the amount for line 30. If this space is rented, enter the rent paid on line 30.

Line 31: Include any special expense, not previously entered and described. Include a statement that offsheet computations were made to support the expenses listed and maintain documentation of any such computations. Line 32: Calculate the total for Lines 7 through 31 and enter the sum.

Line 33: Enter the amount listed under Grand Total Reimb Allocation from the P50-66B.

Line 34: Enter the amount listed under Grand Total Fed Funds Allocation from the P50-66B.

Line 35: Total of lines 33 and 34.

Line 36: Subtract line 35 from 32.

Line 37: Divide line 36 by line 1. This is the **Total Cost per 1.0 ADE for the program**. This amount reflects what it costs to educate one student who is 100% special ed, has a 1.0 FTE, and is in this program all year. This amount is used to then calculate the Ed Cost/Pupil.
