December 1 Child Count

ISBE will collect the FINAL December 1 Child Count on February 26, 2020. The December 1 Child Count is used for federal reporting; therefore, it is imperative that you have accurate *Student Approval* data in I-Star. The following federal indicator reports use the December 1 Child Count:

- **Discipline Data (SIS)**

- **Educational Environments for Students 6-21**

- **Educational Environments for Students 3-5**

- **Parent Involvement Survey**

- **Disproportionality**

- **Post-Secondary Transition**

- **Child Find Timeline**

Some tips for an accurate December 1 Child Count:

- **Make sure** <u>all</u> **students receiving special education on 12/1 have an active 'approved'** *Student Approval* **record in I-Star.**

- **To avoid an 'age' related error, run the 'Alpha Students Turning 10 This School Year' and 'Alpha Students turning 6 This School Year' from the Reports tab in I-Star. Complete any necessary End/Adds due to students turning 6 or 10 on December 1.**

- **Stay up-to-date with** *Student Approval* **errors. To see current** *Student Approval* **errors, complete 'Recheck Edits' from the 'Student Approvals Filter'. Then run the 'Student Approval Errors Listing' from the Report tab in I-Star.**
